

Accreditation for quality by the leading health care rating organization in the US: The Joint Commission

Salus is recognized for achieving the highest levels of performance in:

- *Patient Care*
- *Infection Control*
- *Emergency Operations*
- *Quality Improvement*
- *Safety and Leadership*

National Accreditation for Quality
www.JointCommission.com

At Salus, we recognize how overwhelming and complex this process can be for you and your family, so we've set up a 24/7 phone number to help navigate you through the next steps.

THIS IS YOUR STARTING POINT
24/7 Resource Line: (888) 725-8742

Our goal is to be your dedicated resource for anything and everything you or your family may need -- now or in the future. So whether you just want to talk to someone about how to get started, or need help trying to figure out what the next step should be, or even need help coordinating a ride to the grocery store -- our resource center is open 24 hours a day. So give us a call, and let's figure this out together.

- The phone will be answered by one of our own highly trained navigators
- Resource Specialists are experienced and knowledgeable about the community
- We'll help you navigate whatever your needs might be
- All Resource Specialists are our employees

Salus
Always there...

The benefits of modern home-based healthcare with Salus:

Healthcare in America is going through a once in a lifetime transition

We're keeping up with these changes and transforming the approach to home health care.

Home Care (Caregiving)

A custodial non-skilled service to promote independence and to maintain a safe living environment at home.

Home Health

A skilled restorative service that promotes healing, safety and education.

Palliative Care

Curative care that enhances quality of life and provides comfort measures, pain management and emotional support during a serious illness.

Hospice

Family centered care with a holistic team approach to managing pain, symptoms, emotional and spiritual well-being during the final months of life.

Home Health

- Registered Nurse & Licensed Vocational Nurses
- Physical & Occupational Therapy / Social Workers
- Promotes restoration to prior ability of function

Palliative Care

- Symptom management / curative treatment
- Counseling on decision making regarding care options
- Coordinates care, medical equipment & pharmacy needs with physician

Non-Medical Caregiving

- Well trained and supervised caregivers
- Managed by a full-time case manager
- Tailored plans of care to suit specific needs

Hospice

- Physical, emotional & spiritual support / symptom management
- Includes medications / medical equipment / supplies - delivered to the home
- Nursing / Social Worker / Bathing Aide / Chaplain / Volunteers / Bereavement
